Residence: Dallas, Texas since 1974

Graduate of Oklahoma State University – 1974 with Bachelor's degree in Business Administration

CPA – State of Texas – 1976: Certificate #15915

1983 – Present --- last 27 years:
Owned and developed both a CPA private practice and privately owned oil and gas exploration business.

The 100% privately owned oil and gas businesses include ownership of various corporations and limited partnerships with a concentration in oil and gas production in the state of Oklahoma. Currently operate and produce approximately 50 wells in Oklahoma with daily production in excess of 700 BOPD. Operations include a production company, well service company, and a roustabout company. The combined oil and gas operations currently employ 9 full time employees in Oklahoma and 3 in Texas. Operations also include an operating company in Kansas (operate 25 wells) and Texas (operate 1 well).

The CPA office includes 4 employees in Dallas Texas providing services of business consulting, strategic development for owners of private companies, tax planning and preparation, and accounting services with a major concentration in the area of oil and gas companies. Services are provided to in excess of 150 clients and annually we prepare in excess of 250 partnership returns, 75 corporate returns, 100 individual returns.
